## MRP Facility Rental & Commercial License Permit Policy

The park offers over six miles of walking trails with benches for quiet contemplation, a group camping area, athletic fields, open meadows with stunning vistas, a pond, the Browns River, and extensive wildlife habitat. A large timber frame pavilion with picnic tables is available along with a smaller gazebo. A wooden bridge that spans the Browns River serves as the park's unique entrance. An off-leash dog area encompasses many acres and is extremely popular. In the summer months, there is an evening concert series and a local Farmers' Market.

Over the years, many volunteers, such as scout and school groups, have constructed the gazebo, numerous trail bridges, benches, tent platforms, garden projects, plaques, signs, and contributed trail work. Informal bird-watch outings and nature walks take place during the warmer months.

All areas and the facilities unless, otherwise reserved (see below), are free and open to the public for year-round enjoyment for events, sports, and activities. The Park is a popular place to meet friends for a walk, hiking, skiing, snowshoeing, horseback riding, fishing, biking, picnics, cooling off in the river; and endless possibilities for outdoor play, nature viewing and relaxation.

Several of our facilities can be reserved and require permits &/or fees as follows:
